Milindo GmbH

Section raw material trade

Coal production in Kalimantan:

Particularly on Sumatera and in Kalimantan there are great coal and iron ore deposits. The production of raw material is an important challenge for the future of Indonesia

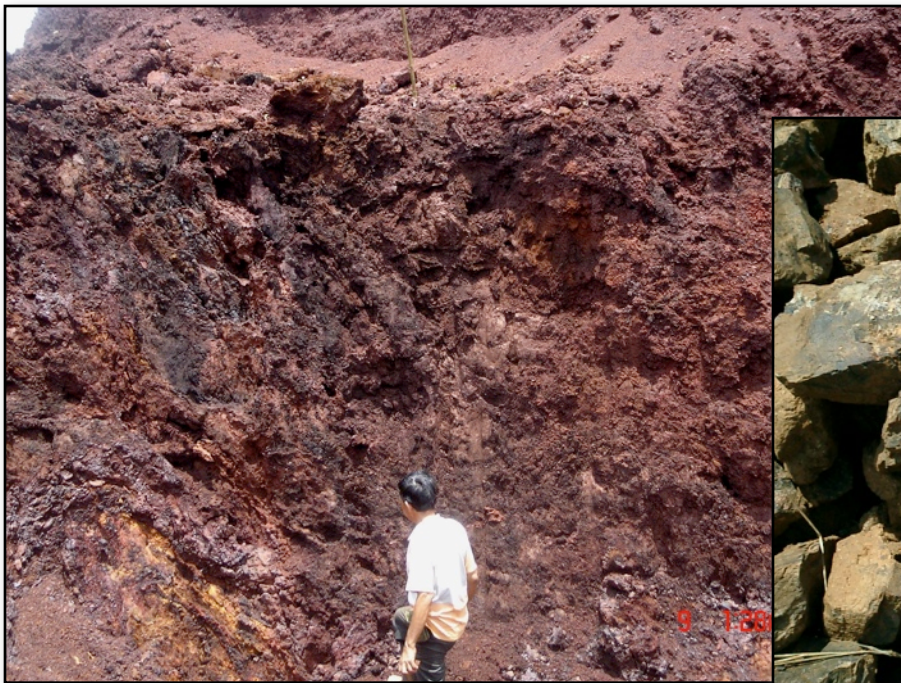

Kalimantan is rich in minerals like steam coal and iron ore in high quality and quantity. As the minerals don't lie deep in the ground the steam coal can be easily produced in open cast mining. .

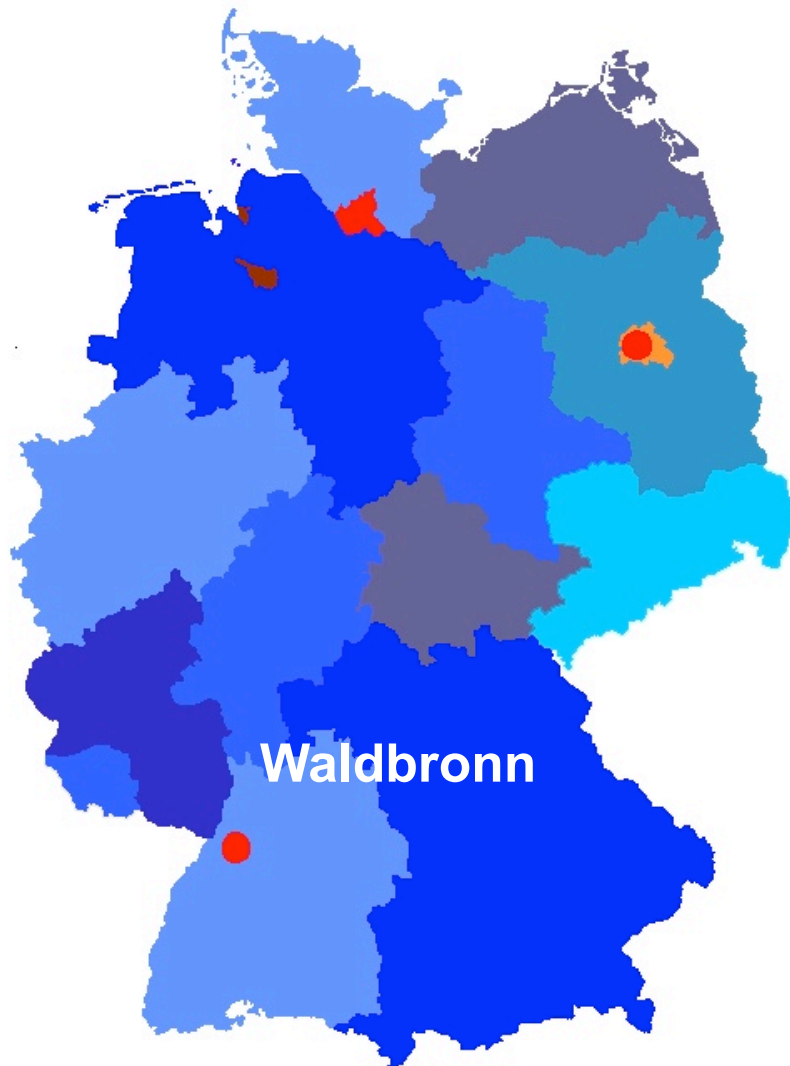

Milindo GmbH

Section raw material trade

We also supply iron ore and manganese ore.
